Email: gamedevjared@gmail.com

Portfolio: <https://jareds-portfolio.vercel.app>

Education:

Electrical Engineering

California Baptist University, 2007-2008

Skills:

HTML, CSS, JavaScript, React, Redux, Zustand, Next.js, Node.js, tailwindcss, Firebase, Netlify, Vercel, Python

Experience:Software Development (2022-Present):

"My Card" - Digital Business Card App (React, Next.js, tailwindcss, Firebase, Vercel)

- Developed a digital business card app with personal URL and QR codes for easy contact sharing.
- Implemented a weather widget, to-do list, and integrated SendGrid for in-app support.
- Project URL: <https://have-mycard.vercel.app>

"Jewelry & Gems" - E-commerce Website (React, Next.js, tailwindcss, Zustand, Firebase, Vercel)

- Built a fully functional e-commerce website for selling jewelry and gemstones.
- Utilized Stripe for purchase processing and product management.
- Project URL: <https://next-jewelry.vercel.app>

"Weather Pal" - A weather app using the OpenWeather API; published to Google Play (Android Studio)

- App URL: <https://play.google.com/store/apps/details?id=weatherreport.suite>

"STARRUNNER" - An endless runner game; published to Google Play (Android Studio)

- Integrated Google's AdMob for banner ads to monetize the app.
- App URL: <https://play.google.com/store/apps/details?id=runner.starrunner>

Jewelry Business Owner/Operator (2012-2022):

- Leveraged entrepreneurial experience to excel in cost estimation, financial management, and strategic planning.
- Demonstrated proficiency in time management while juggling multiple responsibilities in jewelry production and business operations.
- Developed problem-solving abilities through addressing customer requirements, preferences, and concerns, resulting in improved satisfaction and business growth.

Line Cook (2016-2020):

- Developed strong appreciation for meeting deadlines and managing time effectively in fast-paced environments.
- Demonstrated exceptional customer service skills by satisfying customer needs and delivering high-quality service.
- Cultivated adaptability and resilience in high-pressure situations.
